

# Just in Time solutions for the highest demands

### innovation - extrem

Superior and safe: on the ground and in the air

With the highest technical solutions and implementation knowledge, we are the leading experts in aviation, plant and vehicle construction, mechanical and medical engineering. We provide optimum quality, price and delivery service.

**Aerospace** is the synonym for the latest technologies, highest precision and perfection as well as highest quality standards.

In 2014 our quality management system was **certified to the AS/EN 9100 standard** as a clear commitment to fulfill these strict requirements and restrictions of the aerospace industry.

Complex CNC turning and milling parts up to highly safetyrelevant components are part of our product portfolio for well-known customers.

### cnc - extrem

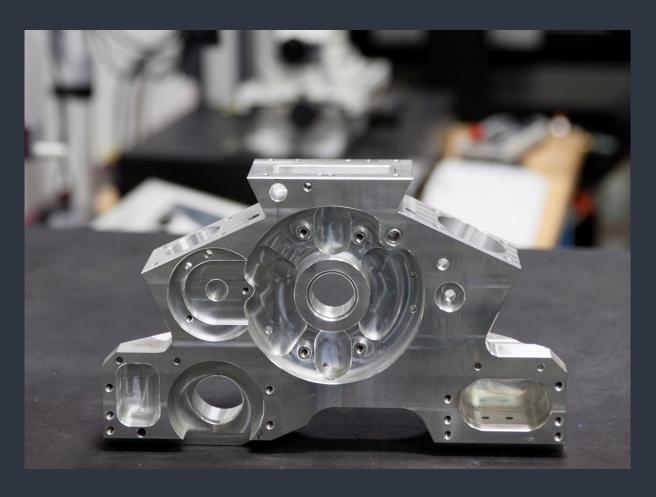

### Your partner from prototype to series

### From the first product idea to the start of production:

Tell us about your idea, we will help you with our expert knowledge to develop an optimized product solution: from support with the material determination, creating and testing of surface patterns, support in design to manufacturing, creation of 3D models from existing 2D drawings up to processing simulations.

Serial production of complex CNC turning and milling parts

We offer you a **wide range** of CNC milling and turning parts of the highest technical level. With our **unique automation concept** we can offer a strong partnership, which makes **just-in-time production** of serial parts with annual **quantities of 100 to 25,000 pieces** possible.

# supply chain - extrem

### Supply chain management

We can manage all required processes from raw material procurement to surface treatment. Even global sourcing is possible. With our powerful network of sub-suppliers we will always find the best solution to fulfill your needs.

### Individual logistic solutions

Transport, motion, inventory - we help you to avoid this types of waste and develop **individually optimized logistic solutions**: Kanban connection, complete assembly sets, development of specific packaging concepts, preassembled components, handling of contracts, consignment stock delivery, connection to customer-specific supplier portals and much more.

# machine list (as of 2023)

### Milling shop:

**Hermle C20:** 5-Axis milling center, 120 tool magazine – HSK63, 600 x 450 x 450mm with robot loading

**Hermle C30:** 5-Axis milling center, 180 tool magazine – HSK63, 650 x 500 x 500mm with robot loading

**3x DMG DMC 65 H:** 4-Axis horizontal milling center, 180 tool magazine – HSK63,

700 x 700 x 700mm docked to linear storage

**DMG DMU 80 P:** 5-Axis milling center, 183 tool magazine – HSK63, 800 x 1.050 x 850mm with robot loading

**DMG DMU 125 U:** 5-Axis milling center, 180 tool magazine – HSK100, 1.250 x 1.000 x 1.000mm docked to linear storage

**DMG DMC 80 U:** 5-Axis milling center, 183 tool magazine – HSK63, 800 x 1.050 x 850mm docked to linear storage

**DMG Milltap 700:** 5- Axis milling center with robotic feeding unit

**2x GROB G550:** 5-Axis milling center, 260 tool magazine – HSK63, docked to linear storage

**DMG DMP70:** 5-Axis milling center with robotic feeding unit

### Turning shop:

**Emco 345:** with driven tools and bar loaders. Rod diameter 45mm, feeding parts 150mm

**Emco Maxxturn 65:** Counter spindle, Y axis, with driven tools and bar loaders. Rod diameter 65mm, feeding parts 250mm

**DMG GMX 250 linear:** 9-Axis, 50 tool magazine, counter spindle. Rod diameter 90mm, feeding parts 500mm

Mazak INTEGREX i300s: advanced multi-tasking machine, 72 tool magazine, counter spindle, Rod diameter 80mm, feeding parts 400mm

Mazak INTEGREX i250H: advanced multi-tasking machine, 112 tool magazine, counter spindle, Rod diameter 65mm, feeding parts 300mm

**DMG CTX2500/1250:** Counter spindle, Y axis, with driven tools and **CELLRO** robotic system.

### Quality assurance:

**2x Mitutoyo Crysta APEX S:** coordinate measuring machine, measuring range 900x1.600x800mm

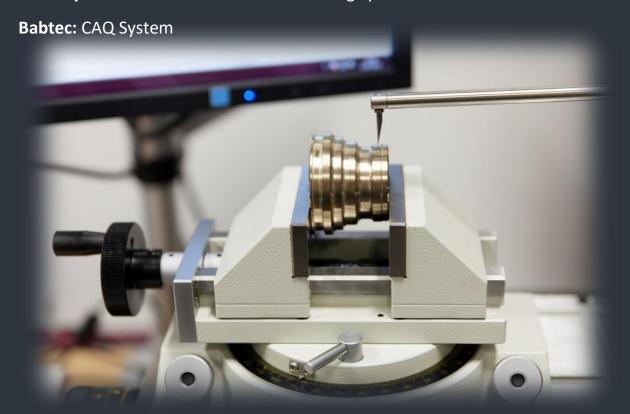

**ZEISS DuraMax:** coordinate measuring machine, measuring range 500x500x500mm

**Metzler Etalon Derby 454:** coordinate measuring machine, measuring range 400x500x400mm

Mitutoyo Contracer CV-3200: contour measuring system

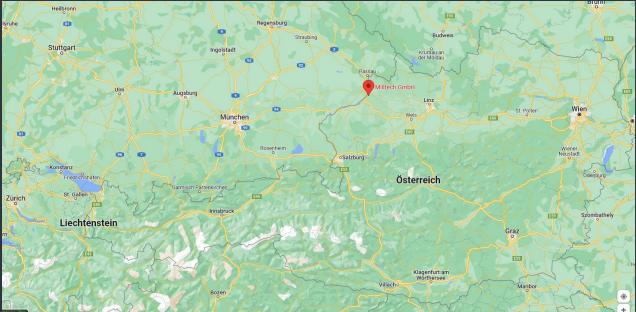

Mitutoyo Surface SJ-410: surface measuring system

Mitutoyo Surface SJ-420: surface measuring system
